Education

Master of Science in Community Economic Development, NH College
Bachelor of Architecture, Summa Cum Laude, Roger Williams College

Jonathan Halle', AIA

Jonathan began his career earning the AIA School Medal and the Henry Adams Medal for Excellence for the study of Architecture while pursuing his first professional degree from Roger Williams College. He has a second graduate degree in Community Economic Development. Jonathan has been engaged in the general practice of architecture for over twenty four years, contributing design and technical expertise in commercial, mixed-use, multifamily and single family residential and renovation projects. Jonathan's skills allow for broad involvement in many of the firms projects ranging from initial project programming, zoning and code review, as well as development of unique and creative project solutions. Jonathan's strength continues to be the overall leadership of the firm focusing on the delivery of innovative and responsible design. He was instrumental in the firms successful convension to an employee-owned cooperative.

Jonathan is an accomplished architect and is credited with many of the firms award winning designs. Jonathan's involvement will be during the early programming and Conceptual/Schematic Architectural Design phase. He will remain involved throughout the process insuring and testing the projects delivery.
